Location Poznań, Poland

PROFILE

DevOps Engineer, developer, the server guy. In IT since 2016, responsible for production infrastructure – environments, deployments, monitoring – since 2023.

PROFESSIONAL EXPERIENCE

DevOps Engineer · ADVOX Studio

Jul 2023 – present

- Design and operation of Proxmox-based infrastructure; Ansible and Terraform automation (Infrastructure as Code).
- Test / stage / prod environments for many parallel projects; internal environment-management tooling in Symfony.
- GitLab CI/CD (build, tests, quality gates, Deployer) – zero-downtime deployments.
- Docker Swarm and Kubernetes: containerising PHP and Python applications (Django – Unicorn, Daphne), image registry, persistent storage, ingress.
- Monitoring (Sentry, ELK), performance analysis, production troubleshooting.
- Security: authentication and authorisation (LDAP/SSO), permission management, hardening, security monitoring.

PHP / Magento 2 Developer · ADVOX Studio

Jul 2021 – Jun 2023

- Two-way integrations of Magento 2 with ERP systems.
- B2B / B2C solutions, including trade-credit payments.
- Performance optimisation of ScandiPWA stores (GraphQL caching in Varnish).
- Product feed generation modules.

PrestaShop / Magento 2 PHP Developer · Fast White Cat S.A.

Jul 2020 – Jul 2021

- PrestaShop version upgrades for existing stores.
- Store and module implementations for PrestaShop 1.7.
- Modules and solutions for Magento 2.

Full-Stack Developer · CoZaButy.pl

Apr 2016 – Jun 2020

- Implementation of the Subiekt GT sales and warehouse system.
- Integrations with Facebook, Google Merchant and Ceneo.
- Technical SEO: PageSpeed Insights, schema.org, GS1.
- PrestaShop rollout and a competitor price-comparison engine.

CERTIFICATES AND TRAINING

Wazuh – your ally in the fight for security and compliance with NIS 2

Securitum · Apr 2026

Wazuh architecture for NIS2 (risk management, incident detection, reporting, business continuity) and mapping NIS2 requirements to Wazuh features: SCA, Vulnerability Detector, Log Data Analysis, Active Response, File Integrity Monitoring. 1.5 CPE/ECE points.

EDUCATION

Uniwersytet WSB Merito Poznań (d. Wyższa Szkoła Bankowa)

2019 – 2023

Computer Science

Politechnika Poznańska

2014 – 2017

Electronics & Telecommunications, Computer Science

TECHNICAL SKILLS

Security	Wazuh (SIEM / XDR), NIS2 / ustawa o KSC, File Integrity Monitoring, Vulnerability Detection, CIS Benchmarks, Suricata, WireGuard, OPNsense, LDAP / SSO, Hardening Linux
DevOps & virtualisation	Proxmox VE, Kubernetes, Docker Swarm, Ansible, Terraform, GitLab CI/CD, Deployer, Traefik, HAProxy, NFS, LDAP
AI	Claude / Claude Code, OpenAI Codex, Cursor, OpenRouter, Qwen / Gemma (self-hosted)
Languages & frameworks	PHP 8, Symfony, Python, Django (deploy: Gunicorn, Daphne), C#, Bash, TypeScript
Platforms (background)	Magento 2, PrestaShop, Pimcore, Subiekt GT
Databases & caching	MySQL, MariaDB, MSSQL, Redis, Elasticsearch / ELK, Varnish
Systems & networking	Debian, Fedora, Arch Linux, CentOS, Windows Server, Nginx, MikroTik, ZFS
Monitoring	Sentry, Prometheus, Grafana, ELK / OpenSearch, Uptime Kuma
